

<sup>1</sup>SDGs: Sustainable Development Goals <sup>2</sup>NUA: New Urban Agenda

## 10 YFP Programmes. Sustainable Buildings and Construction (SBC)

The Sustainable Buildings and Construction (SBC) Programme is one of the 10YFP's six programmes. **It aims at improving the knowledge of sustainable construction and to support and mainstream sustainable building solutions. We support the <sup>1</sup>SDGs and the <sup>2</sup>NUA.**

The SBC programme has **four work streams**:

1. Enabling Frameworks
2. Sustainable Housing
3. Sustainability in Supply Chains
4. Reducing Climate Impacts

### Structure of the SBC Programme

**Lead**

Lead and Co-lead, coordinate and lead the work plan implementation.

**Co-Lead**

**MAC**

Multi-stakeholder Advisory Committee. Decide on the strategy and approve the work plan.

**Partners**

Contribute, participate and benefit from programmes activities (workshops, trainings, policy, tools, and information sharing on best practices and learned).

### MAC Members

### Partners

## Our projects in the world, and much more.

Implementing Sustainable Construction Policy in the Aburrá Valley, Colombia

MaS-SHIP: Mainstreaming sustainable social housing in India

Development of Sustainable Housing Design Tool "SHERPA" in Kenya, Burkina Faso, and Nepal.

### Much more than projects

- The biggest network, focus on sustainable building construction
- Explore synergies,
- Work together,
- Undertake training, increase capacities
- Keep tabs on the status of the world regarding SBC and SCP
- And much more...

Check our web, and get more information
