

**Sofie Absér**

Chair of for SGBCs Sustainable infrastructure Committee  
Head of Sustainability, Sweco Division Transport Infrastructure

Current state of  
sustainability in  
infrastructure?

- **EU sustainability framework**
- **The green industrial transformation**
- **Carbon emissions from land use change**
- **Biodiversity**

# EU regulations and infrastructure

Updated Emission Trading System (ETS)

CBAM Climate tolls

EU Climate law  
55 % to 2030  
Carbon neutral 2050

CSRD

Biodiversity strategy for 2030

Supplier selection ?

Production of materials ?

Choice of materials ?

Carbon in client requirements?

Localisation and land-use change?

Transparency and collection of data?

The green industrial transformation in (Northern) Sweden

Investments in infrastructure

Carbon footprint  
Biodiversity  
Social sustainability...

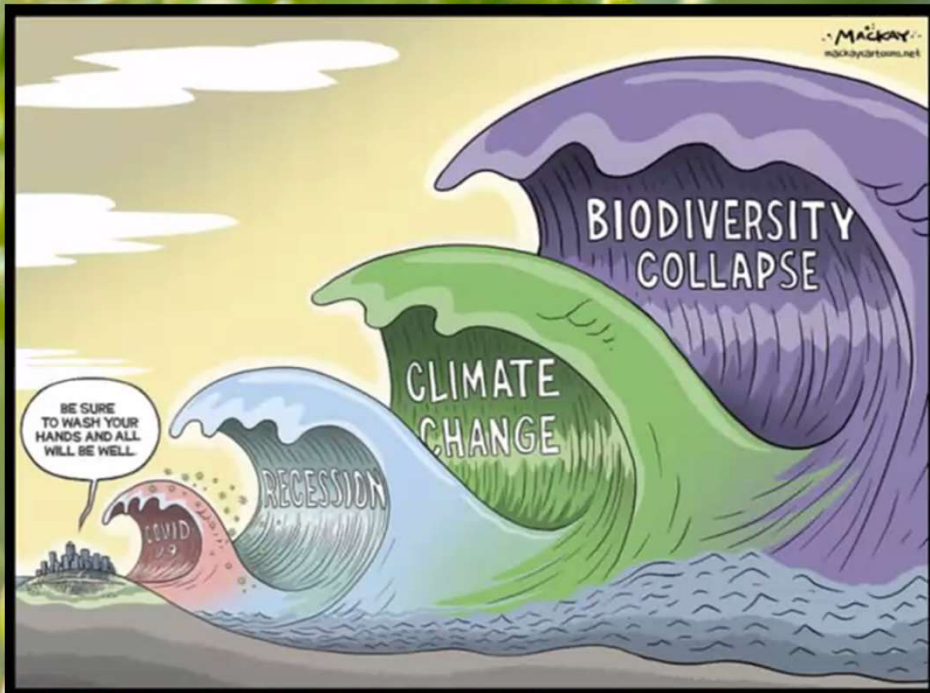

# Carbon emissions from land-use change

- Awareness in industry
- Accepted methods for calculation?
- Development project digging in...

# Biodiversity
