Sustainable Buildings and Construction (SBC)

The Sustainable Buildings and Construction (SBC) Programme is one of the 10YFP’s six programmes. It aims at improving the knowledge of sustainable construction and to support and mainstream sustainable building solutions. We support the Sustainable Development Goals and the New Urban Agenda.

ARE YOU A COMPANY THAT IS LOOKING TO BUILD A BETTER PLANET?

SBC Thematic Focus Areas

Responsibly Sourced Materials in Circular Built Environments (MACE)
Aspirational target: “The SBC programme works towards circular built environment, aiming at reducing waste and a global 30% recovery rate of construction and demolition waste”

Affordable and Resilient Built Environment (ARBE)
Aspirational target: “The SBC programme works towards affordable and resilient built environment by supporting 10 countries with social housing/reconstruction programmes, 10 communities with adaptation plans and 30 communities with sustainable construction training by 2030 in order to adapt to the impacts of rapid urbanisation and climate change”

SBC Network

Join, and change the world with us
